Europe's summer travel strikes

Europe is a hive of strike action right now, with many employees unhappy that sky-high inflation has not been matched by higher wages.

Walkouts are planned all over Europe, showing that it always pays to check before you travel.

Places the U.S. Government Warns Not to Travel Right Now

After a pandemic-fueled travel slump, people are once again pulling out their passports and planning trips abroad.

International tourist arrivals could reach 80% to 95% of pre-pandemic levels in 2023, according to the World Tourism Organization. But some destinations warrant more caution than others.
